To Whom I may concern,

My name is Hayley Bateup, I'm writing in regards to Lake Hugh Muntz. I have been a professional surf life saver born and bred on the Gold Coast, I have trained at the lake throughout my career and I have also trained many nippers down at the lake.

The lake has been somewhere that I have enjoyed and helped the Gold Coast community. I feel that without it there isn't a safe place for fellow Gold Coasters including children that could train that is free of sharks and feel safe during times of large seas.

I would like to see the lake quality of water being maintained and I hope to see the community and future nippers still being able to enjoy the lake as I have for many years.

Kind regards,

Hayley Bateup
