

To whom it may concern:

I am writing to express my concern that Gold Coast City Council is not doing anything to fix the blue-green algae problem in Lake Hugh Muntz, Mermaid Waters.

I have competed in Surf Life Saving for over 25 years winning 40 Australian Championships. I have used Lake Hugh Muntz as a training venue in the past and it is disappointing that the location is no longer safe for the community to use.

This doesn't just effect the surf life savers, nippers and triathletes but also the lake's residents and locals that can no longer use it as a safe recreational facility.

Yours Sincerely,

*Lee Vrolyks*
