To whom it may concern,

My name is Rhett Collie and I am the nipper coach for Kurrawa SLSC.

We were one of the regular users of Lake Hugh Muntz through the last year and I believe the Kurrawa Surf Club has used this facility for many years.

Lake Hugh Muntz has been a safe location for us to conduct training for our nipper community for the following reasons:

- Being flat water, it is a safe environment for our beginner members as well as providing a safe alternative when the surf becomes dangerous.
- It is a closed water way which gives our parents piece of mind that there are no marine creatures that can cause harm to their children.
- It is fresh water and non-tidal so there is limited water movement as opposed to canals & river mouths.

Lake Hugh Muntz offers a unique training location for our surf club and we would like to support any efforts that are put in place to ensure this facility remains available and safe for our continued use.

If you have any questions relating to this, feel free to contact me via the details on this letter.

Regards  
Rhett Collie  
Nipper Coach – Kurrawa SLSC
